Alexandria, VA 22313-1450

AMENDED ABSTRACT

~~A main object of the present invention is to provide an~~ An artificial corundum crystal which can be put into practical use at low costs, and a process for producing the same. ~~The invention provides an~~ artificial corundum crystal ~~containing~~ contains a seed crystal and ~~having~~ has at least one crystal face selected from ~~the group consisting of~~ a {113} face, a {012} face, a {104} face, a {110} face, a {101} face, a {116} face, a {211} face, a {122} face, a {214} face, a {100} face, a {125} face, a {223} face, a {131} face, and a {312} face. ~~The invention further provides a process for producing~~ [[an]] the artificial corundum crystal, ~~wherein an artificial corundum crystal having a hexagonally dipyramidal shape as its base shape is formed~~ includes forming with a seed crystal by a flux evaporation method of heating a sample containing a raw material and a flux to precipitate a crystal and grow the crystal by use of flux evaporation as a driving force.
